is pleased to offer a **FREE** evening workshop for youth ages 10- to 17 on

HOW TO IDENTIFY, PREVENT, & REPORT BULLYING!

Bullying has become a national problem. We see it in our schools, playgrounds, internet, texting and any other means of communicating violence. According to ABC news, nearly 30 percent of students are either bullies or victims of bullying, with recent studies linking bullying with suicide.

Carl Pace has been teaching kids about the dangers of bullying since 2006 in our schools and local businesses. He is an expert in the field of personal protection, self defense and security training. He is a retired Deputy Sheriff and certified instructor with a variety of skill sets and a love of helping children.

The Healing with Horses team will join forces with Carl for a learning experience that your child will not forget. This three and a half hour class will consist of group learning as well as hands on activities.

Children will interact with horses but all exercises will be conducted on the ground, so no riding experience is necessary.

We will be holding this workshop at the Carousel Park and Equestrian Center located at 3700 Limestone Rd. Wilmington, DE 19808. Snacks and beverages will be provided.

Class size is limited so don't wait!
